QUESTIONS AND ANSWERS CONCERNING THE DURABLE POWER OF ATTORNEY FOR HEALTH CARE AND HEALTH CARE DIRECTIVE

INTRODUCTION

Many Missouri citizens are concerned about the health care they may receive if they cannot express their desires. The Missouri Bar is providing this form to you as a public service. This form is not the only way to express your desires regarding future health care. If you have special needs, you may want to consult a lawyer. This form allows you to appoint an agent to make health care decisions if you are unable to do so. The form also allows you to furnish clear and convincing proof of your intentions regarding your future health care.

QUESTIONS AND ANSWERS

The following questions and answers may help you understand the form:

Do I need a lawyer to complete this form?

A. No. However, if you do not feel this form meets your needs, you may want to consult a lawyer.

Why does this form have three parts?

A. Part I is your Durable Power of Attorney for Health Care. It allows you to appoint someone to make decisions for you if you are unable to act concerning your health care.

Part II is your Health Care Directive. It allows you to express your intention regarding your future health care.

Part III provides for notarization. If you intend to use the Durable Power of Attorney For Health Care in Part I, this document **must** be notarized.

What is a Durable Power of Attorney for Health Care (Part I)?

A. It is a document that allows you to appoint someone to make all kinds of health care decisions for you, but only if you are not able to do so. These decisions may include, but are not limited to, decisions to withhold or withdraw life-prolonging procedures.

What is a Health Care Directive (Part II)?

A. It is like a living will; it is a document that allows you to state in advance your wishes regarding the use of life-prolonging procedures. It may be relied upon when you are unable to communicate your decisions.

Do I need both?

A. If you decide that you want someone to speak for you concerning your future health care you will need to fill out the Durable Power of Attorney for Health Care (Part I). Please consider doing this if there is someone you would like to appoint. If you decide that you want to express your desires about life-prolonging procedures you will need to fill out the Health Care Directive (Part II). The Directive will provide doctors and others with evidence concerning your wishes. The Health Care Directive (Part II) may also serve as a guide for your agent.

Does the person I appoint as my agent have to be a lawyer?

A. No. You may appoint a person 18 years of age or older. An agent is usually a close relative or someone you trust with your life. It cannot be your doctor, an employee of your doctor, or an owner/operator or employee of a health care facility in which you are a resident, unless you are related.

Can an agent withhold or withdraw artificially supplied nutrition and hydration?

A. Yes, if you specifically authorize your agent to do so. The Durable Power of Attorney for Health Care (Part I) requires that you indicate whether or not you want your agent to have authority to withdraw this type of medical treatment. The Health Care Directive (Part II) also requires that you indicate whether or not you want artificially supplied nutrition and hydration to be withheld or withdrawn under certain circumstances.

When can my agent act?

A. The Durable Power of Attorney for Health Care (Part I) only become effective when you are incapacitated and unable to make health care decisions. Unless you state otherwise, Missouri law requires two doctors to make the incapacity decision. The form allows you to choose whether you would like one or two doctors to make the incapacity decision.

If I already have a Durable Power of Attorney, should I sign a Durable Power of Attorney for Health Care (Part I)?

A. Possibly. Your existing Durable Power of Attorney may not cover health care or comply with Missouri Durable Power of Attorney for Health Care Act.

If I already have a Living Will, should I sign a Health Care Directive (Part II)?

A. Possibly. Many Living Will forms currently in use only apply when you are expected to die within a short period of time and do not allow for the withdrawal or withholding of artificial nutrition and hydration. They do not cover a condition such as the persistent vegetative state which occurred in the well known case of *Cruzan v. Director*, 110 S.Ct. 2841 (1990).

However, if my physician believes that any life-prolonging procedure may lead to a significant recovery, I direct my physician to try the treatment for a reasonable period of time. If it does not improve my condition, I direct the treatment be withdrawn even if it shortens my life. I also direct that I be given medical treatment to relieve pain or to provide comfort, even if such treatment might shorten my life, suppress my appetite or my breathing, or be habit-forming.

I want to donate my organs or tissues and realize it may be necessary to maintain my body artificially after my death on a breathing machine until my organs can be removed.

Instructions for Completing Part III.

General Provisions Included in the Directive and Durable Power of Attorney

Part III. must be completed for the Durable Power of Attorney for Health Care (Part I) and the Health Care Directive (Part II) to be effective. Please see the instructions on the back of the following page.

Part III. General Provisions Included in the Directive and Durable Power of Attorney

1. Relationship Between Directive and Durable Power of Attorney. If I have executed the Directive and the Durable Power of Attorney, I encourage my Agent to follow my wishes as expressed in the Directive in making decisions regarding life-prolonging procedures. However, I have confidence in my Agent's ability to make decisions in my best interest, and I authorize my Agent to make decisions that are contrary to my Directive in his or her best judgment. If the Durable Power of Attorney is somehow determined to be ineffective, or if my Agent is not able to serve, the Directive is intended to be used on its own as firm instructions to my health care providers regarding life-prolonging procedures.

2. Protection of Third Parties Who Rely on My Agent. No person who relies in good faith upon any representations by my Agent or Alternate Agent shall be liable to me, my estate, my heirs or assigns, for recognizing the Agent's authority.

3. Revocation of Prior Directive or Durable Power of Attorney. I revoke any prior LIVING WILL, Declaration or Health Care Directive executed by me. If I have appointed an Agent in a prior durable power of attorney, I revoke any health care terms contained in that durable power of attorney.

4. Validity. This document is intended to be valid in any jurisdiction in which it is presented. The provisions of this document are separable, so that the invalidity of one or more provisions shall not affect any others. A copy of this document shall be as valid as the original.
